Let us GUIDE you on your dementia journey!

Medicare's new GUIDE Program provides Care Navigators at no cost to support dementia patients and their caregivers.

Enroll Today (877) 933-7296

What is GUIDE?

Medicare launched the GUIDE program in 2024 to support patients with dementia and their unpaid caregivers as they navigate the challenges of living with dementia. Patients keep their current physicians, and the additional GUIDE personnel provide care in between your physician visits.

GUIDE Goals:

- Improve the quality of life for people living with dementia
- Enhance support for their unpaid caregivers
- Enable people with dementia to remain in their homes and communities longer

What GUIDE Includes:

- Care Navigator provides care for patients, assists caregivers & coordinates with care team
- No cost, copay or deductible for patients
- Focused dementia caregiver education, support and $2,625 of annual respite services
- Personalized care plan including social services and medication recommendations

Who is Eligible for GUIDE?

People with diagnosed dementia and Original Medicare (Parts A & B) as their primary insurance.

GUIDE is **not** available for dementia patients:

- with Medicare Advantage
- residing in skilled nursing or memory care
- enrolled in PACE or hospice programs

Embrace and Advanced are your local GUIDE partners

Embrace provides GUIDE care throughout Pennsylvania. We have been providing home telehealth care for several years that has helped older adults reduce their risks of going to the hospital or the nursing home.

Here's what Embrace dementia care provides:

- Clinical Expertise - Local Nurse Practitioners are your Care Navigators
- Personalization - We focus on what matters most to the patient and caregiver
- Holistic Approach - We focus on your total health, not just your dementia illness
- Telehealth care via video or phone for easy and frequent interactions at home
