

Integrated Care for Every Stage of Your Health Journey

At Advanced Home Health & Hospice, we are dedicated to providing a seamless continuum of care that meets your needs at every stage of your home health care, palliative care, and hospice care, ensuring that you receive the right level of support at the right time.

Personal Care

There may be times when patients may require hired caregivers because an individual's needs surpass the standard coverage provided by core home health and hospice services. At Advanced Personal Care, our caregivers offer personalized hourly care, focused on daily living activities, aiming to support individuals in staying at home safely and independently, including daily living assistance, light housekeeping, personal hygiene, and companionship. These services are often paid by the individual.

Advanced Home Health

At Advanced Home Health, we bring health care services to you in the comfort of your own home. Our focus is on delivering health care that is specific to your needs, whether it's care that is concentrated on supporting you to manage a chronic disease or helping you to recover from a new illness or surgery.

Services We Provide

- Skilled Nursing
- Physical Therapy
- Occupational Therapy
- Speech Therapy
- Home Health Aide
- Social Work
- Palliative Care

Palliative Care

Traditional home health care focuses on your disease or condition. Palliative care adds an emphasis on preventing and alleviating suffering, improving quality of life, and helping patients and their loved ones cope with the stress and burden of a serious illness whether chronic or life limiting.

Patients often transition from palliative care to hospice care when their disease progresses to a point where curative treatments are no longer effective, and the focus shifts to maximizing comfort and quality of life in the final stages of life.

Our goal is always to improve quality of life for both patient and their family through comprehensive symptom management and coordination of care.

Advanced Hospice

Advanced Hospice is committed to honoring the wishes and dignity of every individual. We strive to create a supportive environment where patients can live their remaining days with comfort and peace, surrounded by loved ones. Our compassionate team is here to guide you every step of the way.

What We Offer

Personalized Care: Tailored care plans to meet individual needs and preferences, focusing on comfort and quality of life.

Expert Team: Dedicated Physicians, Nurses, Social Workers, Chaplain, and Volunteers who provide compassionate support and medical expertise.

24/7 Support: Around-the-clock availability for assistance and guidance, ensuring peace of mind for patients and families.

Emotional and Spiritual Care: Counseling and support services to address emotional and spiritual needs during this challenging time.
